Photo: Robert Moore

Description: Installed for security, Sevin designed and fabricated the artistically ornate 20' x 8' rolling gate and 4' x 8' walk-through gate using age-old Smithing methods.

Artist biography: Since the 1970s, Peter Sevin has been an artisan blacksmith in Phoenix, Arizona, designing and fabricating all of his own creations. His work has been exhibited at many Arizona art museums including the Tucson Museum of Art and the Phoenix Art Museum. In 1993 Sevin's work was displayed at the National Metal Museum in Memphis, Tennessee. He has made several large-scale commissions, both residential and public, including the copper logo and entry gate for the Arizona Historical Society Museum. Sevin's iron work is inspired by nature and by traditional Smithing practices.

Funding: This project was funded by the individual developer, The Rudel Company, as a requirement of Tempe's Art in Private Development Ordinance.
